

Certificate # 199 MD

THANK YOU FOR CHOOSING Matrix Micro-Coatings™ LifeTime Performance™ Paint Protection & Enhancement Solution. PLEASE KEEP THIS WARRANTY CERTIFICATE! You will need it should your installation of Matrix Micro-Coatings™ require warranty service.

LIMITED LIFETIME WARRANTY

WHAT IS COVERED: Matrix Micro-Coatings, Inc. warrants that with the proper application of **Matrix Micro-Coatings™ LifeTime Performance™ Paint Protection & Enhancement Solution** by a Matrix Micro-Coatings' approved installer, your vehicle's paint finish will remain protected against oxidation or loss of gloss and color fading due to weather, and staining or discoloration from bird droppings, tree sap, insects, acid rain and industrial fall out, for as long as you own your vehicle. If any treated paint is shown to be adversely affected from exposure to these conditions or through normal use, as evidenced by a visible loss of paint gloss or intractable stain, then such conditions will be remedied free of charge by Matrix Micro-Coatings, Inc. and / or its authorized installers, who reserve the right to attempt repairs through professional surface reconditioning / polishing before repainting the damaged area.

WHAT IS NOT COVERED: This warranty is valid only for Matrix Micro-Coatings™ products that are installed in accordance with Matrix Micro-Coatings™ application procedures and properly maintained according to the care guidelines stated below. This Warranty does not cover defects other than loss of paint gloss and / or staining of paint finish. Matrix Micro-Coatings, Inc. will not be liable for: (1) any incidental, special, consequential or punitive damages arising from any defect in any other product; (2) any damages caused by outside forces other than product defect or abnormality; and (3) any and all other expressed or implied warranties including warranties of merchantability and fitness for a particular purpose.

Warranty Rights: Because some jurisdictions do not allow the exclusion or limitation of incidental or consequential damages or term limitations on an implied warranty, the above limitations may not apply to you, and you may also have other rights which vary according to jurisdiction.

This warranty is applicable only if all the information below is completed and submitted to Matrix Micro-Coatings, Inc. (by telephone, mail, or web site listed below) within 30 days of purchase.

PROPER CARE GUIDELINES

Your vehicle's paint will remain permanently insulated, during normal use, against chemical attack from any kind of environmental pollutant, e.g., acid rain, animal and vegetable deposits (bird droppings and tree sap) and road grime, including salts and insect fluids. By the same measure, with PROPER CARE the increased depth of gloss and color intensity, the greater distinction of object (reflectivity), and increased ease of cleaning imparted to your vehicle's paint by **Matrix Micro-Coatings™** will remain unchanged for many years and may be considered permanent.

Proper care consists of cleaning your vehicle whenever it becomes soiled with road grime or substances like tree sap, bird droppings, insect deposits, industrial pollutants, etc. Cleaning may be as simple as rinsing with water and then drying with a microfiber cloth. Most often detergents and even automated car washings are not required. Whatever cleaning method is used, it is crucial to thoroughly dry after cleaning. Insure that NO water is left to dry on the coated surface, particularly within the first two (2) weeks that **Matrix Micro-Coatings™** has been installed. In the event that your vehicle is exposed to high mineral-content water ("hard" or "soft" water) like that from an automated car wash or a sprinkler system or even tap water, then all coated areas need to be dried as soon as possible with a microfiber cloth. Any water that is left to dry may form visible ringlets, which should be wiped off with vinegar until the mineral deposit is removed. Failure to do so in a timely fashion may result in a deposit that, although perhaps not visible, will lessen the Coatings' water-repellency and ease of cleaning benefits. For further examples of extra cleaning and care beyond a periodic rinsing and drying, such as removal of asphalt, cement, tar, etc., and appropriate cleaning solutions, please visit the **Matrix Micro-Coatings™** web site.

Note: This warranty remains with the vehicle and is transferable to its subsequent owner only upon inspection by an authorized installer or by Matrix Micro-Coatings, Inc.
